

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mikhail Chernyak
DOCKET NO.: 03-22109.001-R-1
PARCEL NO.: 03-05-414-037-0000

The parties of record before the Property Tax Appeal Board are Mikhail Chernyak, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 15-year old, two-story frame dwelling containing 2,278 square feet of living area with a full, unfinished basement, central air conditioning, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located on the same street as the subject, and two are located approximately 0.25 mile from the subject. The remaining comparable is located approximately five miles from the subject in a different municipality. The comparables are two-story frame dwellings that are 12 or 22 years old. Two of the comparables have unfinished basements, and two have partial basements. Each of the comparables has a fireplace and central air conditioning. Information on garages was not disclosed, although photographs supplied by the appellant indicate that at least three comparables have two-car garages. The comparables contain 2,278 to 2,816 square feet of living area and have improvement assessments ranging from \$7.98 to \$9.67 per square foot. The subject property has an improvement assessment of \$11.45 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,720
IMPR.:	\$	26,074
TOTAL:	\$	32,794

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties that are located on the same block or one to two blocks from the subject. The comparable properties consist of two-story frame dwellings that are 15 years old. Each comparable has a full, unfinished basement, a two-car garage, and central air conditioning. One comparable has a fireplace. The dwellings contain 2,278 square feet of living area and have improvement assessments of \$11.45 to \$11.79 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

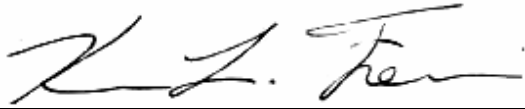

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable four differed significantly in location from the subject, and comparable one differed substantially in size from the subject. As a result, these comparables received reduced weight in the Board's analysis. The appellant's comparables two and three and the board of review's comparables were the most similar to the subject property in age, location, and physical characteristics. These five comparables had improvement assessments of \$9.26 to \$11.79 per square foot and support the subject's improvement assessment of \$11.45 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject properties, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
